# BMC AMI Security

Learning Path
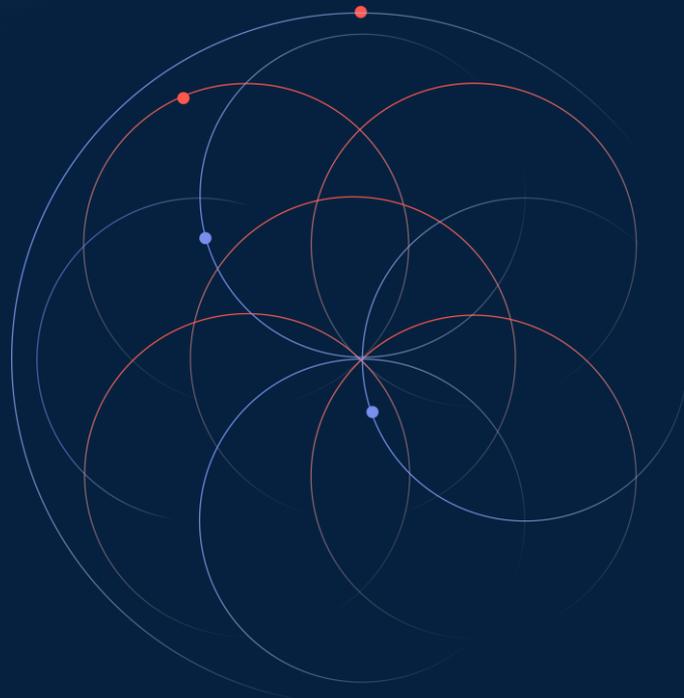

BMC AMI Security Mainframe Core

Recommended for: System Programmers, Users

Product versions: 6.x; 7.x

BMC AMI Security automatically protects, detects, and responds to threats on your mainframe. Acting as a virtual security expert, it uses out-of-the-box policies to harden the mainframe environment against vulnerabilities, insider threats, and data theft. Actionable insights help incident responders investigate and close the window of opportunities for hackers.
